

HELPING REDUCE YOUR HEATING BILLS

NOW
with inbuilt
Fuel Theft Alarm

**Monitor your tank level in
litres, your heating oil costs
and fuel consumption by day,
by week, by month, by year.**

SCAN THE QR CODE

Using Apollo Smart to monitor fuel costs and heating oil usage as part of an integrated energy management plan, can help you to manage and reduce heating costs.

And because reduced heating oil consumption means reduced carbon emissions, energy efficiency doesn't just make financial sense... it makes environmental sense too.

That which is monitored
can always be reduced.

Built-in Visual and Audible Low Level Alarms.

In Room Temperature Display.

Constant Fuel Level Displayed.

Unique Critical Days To Empty Feature.

APOLLO ultrasonic **SMART ALARM**

Get the most from your heating oil
with the **NEW Apollo Smart App!**

The new Apollo Smart App allows you to analyse fuel consumption, carbon emissions and heating oil costs on almost any PC.

Available from www.dunravensystems.com as an extra cost download, the app utilises Apollo Smart's built-in USB connectivity to upload information from the receiver unit to your desktop or laptop. Usefully, the app also allows you to access and download the latest software updates for your device.

Apollo Smart is suitable for almost any tank from 50cm up to 3 metres deep...irrespective of material, model, capacity or manufacturer. As well as being ideal for Single Skin Tanks, Apollo Smart is ideal for modern, environmentally preferred, Bunded Tanks.

The Apollo Smart Receiver Unit benefits from a mains power supply, and simply plugs into a standard socket, allowing you to monitor oil heating usage from almost any room in your home or office. And because it's mains powered, there are no batteries to run out, lose or replace.

The Transmitter Unit is powered by a long life, temperature resistant, **lithium battery**, which can last

UP to
10
YEARS

The first in the world and still the best.

Today, there are thousands of Apollo systems providing dependable service to homeowners and householders across the UK, Ireland and further afield...which is why Apollo products are fitted as standard by more tank manufacturers in Great Britain and Ireland than any other comparable product.
