

SUPER UNIVERSAL THERMOCOUPLE

Universal Thermocouples cover the replacement needs of the majority of the controls to be found in the UK domestic heating & commercial catering markets. The thermocouple & relevant components have been designed for ease of application. Super Universal thermocouples are designed to perform to at least the same standard as the original equipment.

GAS APPLIANCES (SAFETY) REGULATIONS 1995

This thermocouple is currently exempted from requiring a fittings certificate.

Installation & use must be in accordance with the manufacturers instructions.

Please read instructions before installing

To ensure the maximum life of the thermocouple it is recommended that the hot junction should not be subjected to a temperature above 600°C (dull red). Minimum bend radius 15mm.

GAS VALVE CONNECTORS

1 x 11/32 Captive Nut
1 x M8 x M10 Double Split Nut
1 off M9 Split Nut

PILOT BURNER FITTINGS

2 x M6 Brass Locking Nuts, coned shape for easy location in pilot assembly

1 x SPRING CLIP
